### Short description

×

Cipro is a potent antibiotic indicated for the treatment of severe bacterial infections, including respiratory and urinary tract infections, skin infections, bone, and joint infections, intra-abdominal infections, certain types of infectious diarrhea, and typhoid fever among others. Cipro can also be used in children under the age of 18 to treat complicated urinary tract and kidney infections or who may have breathed in anthrax germs, have the plague or have been exposed to plague germs.
