### Short description

Silagra® is an effective treatment for men with erectile dysfunction regardless of their age and the duration of the problem. Silagra® works by blocking certain enzyme called phosphodiesterase-PDE5 in the body. The operation of Silagra® depends on Sildenafil which helps the blood to flow into the penis to reach and maintain an erection. It works by relaxing the hardened arteries in the penis which are due to arteriosclerosis and increases the blood flow to the penis facilitating erection during sexual arousal. [Read more](#)
