Zyloprim (Allopurinol) ★★★★★

BUY NOW

Short description

Generic Zyloprim is a medication used for gout treatment, provoked by metabolism abnormality with serious affection on joints. Generally, it is used for treating acute attacks of gout, erosive destructive gouty joint disease, uric acid deposits in tissues gouty kidney disease, and uric acid stones. Generic Zyloprim is used for treating gout caused by excessive levels of uric acid in the blood (hyperuricemia). Hyperuricemia occurs when the body produces more uric acid than it can eliminate.
